Attachment H - Faith Love Letter

To whom it may concern: July 6th, 2015

My name is Faith Love. I have known Jennifer Kasserman all of my life. She is very nurturing of all her animals in her care. I go over to her house all the Time with my mom. since I'm only 11. When ever I go over we get to see all the animals and if they don't wan't to Be messed with she tells us that we will see them some other time. My mom is a 6th grade science teacher at Eastgate middle school and Jenny comes and teaches the Students about the animals. my Mom & me also help at the mid-content public libary(s) when Jenny goes to shows. I have never once been worried about my safty of and the animals.

When we go to the libraries Jenny
is sure not to take animals
that don't want to be messed
with at her house to the
shows or out at a show.
She would never put the animals
and the people around them
in any harmful situation.
At the begging of each show
she tells the audience that the
sound level needs to stay down
so the animals don't get stressed.
I'm going into 6th grade
next year and im looking forward
to learning more about all the
animals

Sincerely,
Faith
