**Report on Internal Control Over Financial Reporting  
and on Compliance and Other Matters Based on an Audit  
of Financial Statements Performed in Accordance With  
Government Auditing Standards**

**Independent Auditor's Report**

To the Board of County Commissioners  
Clay County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Clay County, Missouri (the County), as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated June 30, 2017.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as 2016-001 through 2016-004 that we consider to be material weaknesses.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**County's Response to Findings**

The County's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report on Compliance for Each Major Federal Program,  
Report on Internal Control Over Compliance and  
Report on Schedule of Expenditures of Federal Awards  
Required by the Uniform Guidance**

**Independent Auditor's Report**

To the Honorable County Commissioners of  
Clay County, Missouri

**Report on Compliance for the Major Federal Program**

We have audited Clay County, Missouri's (the County) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended December 31, 2016. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations and the terms and conditions of its federal awards applicable to its federal programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the County's compliance.

***Opinion on the Major Federal Program***

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2016.

## **Report on Internal Control Over Compliance**

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a certain deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2016-005 that we consider to be a significant deficiency.

The County's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## **Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the County as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the County's basic financial statements. We issued our report thereon dated June 30, 2017, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

*RSM US LLP*

Kansas City, Missouri

## Clay County, Missouri

### Notes to Schedule of Expenditures of Federal Awards Year Ended December 31, 2016

---

#### **Note 1. Basis of Presentation**

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Clay County, Missouri (County) for the year ended December 31, 2016. All federal awards received directly from federal agencies as well as those awards that are passed through other governmental agencies, and expended during the year are included on the schedule of expenditures of federal awards. The information in this schedule is presented in accordance with the requirements of the OMB Compliance Supplement and the Uniform Guidance. Therefore, some amounts presented in this schedule may differ from amounts presented in or used in the preparation of the financial statements.

#### **Note 2. Significant Accounting Policies**

Expenditures of federal awards are recognized in the accounting period when the liability is incurred and approved for reimbursement. Such expenditures are recognized following the cost principals contained in OMB Circular A-87, *Cost Principles for State, Local and Indian Tribal Governments*, or the cost principles contained in *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards*, wherein certain types of expenditures are not allowed or are limited as to reimbursement. Pass-through entity identifying numbers are presented where available.

#### **Note 3. Subrecipients**

There were no amounts passed through to subrecipients for the year ended December 31, 2016.

#### **Note 4. Indirect Cost Rate**

The County elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

**Clay County, Missouri**

**Summary Schedule of Prior Audit Findings  
Year Ended December 31, 2016**

Number	Comment	Status
<b>Material Weakness in Internal Control Related to the Financial Statement Audit</b>		
<b>Internal Control</b>		
2015-001	Lack of Internal Controls over Financial Reporting – Material Weakness During the audit there were a significant number of audit adjustments proposed to the original trial balance that was presented to us, that materially affected a significant number of year-end balances.	Not Corrected
2015-002	General Ledger System Access – Material Weakness There is one County employee who has the ability to record journal entries to the general ledger and also has IT administrative access (super user). Management of the County has not implemented effective compensating controls to address this inadequate segregation of duties.	Not Corrected
2015-003	Journal Entries Posted in the General Ledger – Material Weakness There are no procedures in place to review and approve journal entry transactions by someone independent of the individual posting the entry in the general ledger.	Not Corrected

**Schedule of Findings and Questioned Costs  
Year Ended December 31, 2016**

---

**I. Summary of Auditor's Results**

**Financial Statements**

Type of report the auditor issued on whether the financial statements were prepared in accordance with GAAP: Unmodified

Internal control over financial reporting:

- Material weakness(es) identified?  Yes  No
- Significant deficiency(ies) identified?  Yes  None reported
- Noncompliance material to financial statements noted?  Yes  No

**Federal Awards**

Internal control over major programs:

- Material weakness(es) identified?  Yes  No
- Significant deficiency(ies) identified?  Yes  None reported

Type of auditor's report issued on compliance for major federal programs: Unmodified

- Any audit findings disclosed that are required to be reported in accordance with Section 2 CFR 200.516(a)?  Yes  No

**Identification of major programs:**

CFDA Number	Name of Federal Program or Cluster
20.106	Airport Improvement Grant
97.036	Hazard Mitigation Grant

Dollar threshold used to distinguish between type A and type B programs: \$750,000

Auditee qualified as low-risk auditee?  Yes  No

II. Financial Statement Findings

A. Internal Control

*2016-001 – Lack of Internal Controls over Financial Reporting – Material Weakness*

Criteria: Management of the County is responsible for establishing and maintaining effective internal controls over financial reporting. These controls should allow management or employees to prevent, or detect and correct, misstatements to the financial statements on a timely basis.

Condition: During the audit there were a significant number of audit adjustments proposed to the original trial balance that was presented to us at the beginning of the audit, that materially affected year-end balances, primarily relating to cutoff for accounts payable and the proper timing of expenditure recognitions.

Cause: The County does not have proper procedures and controls in place to ensure the financial statements are prepared in accordance with generally accepted accounting principles. Individuals preparing the financial statements do not have a process in place to identify and record accounts payable and related expenditures to ensure proper cutoff at year-end.

Effect or potential effect: There were significant financial statements adjustments proposed during the audit process. The lack of proper procedures and controls in place over the preparation of the financial statements could also potentially result in material misstatements of the financial statements and material departures from generally accepted accounting principles.

Recommendation: We recommend the County put in place a timely year-end financial statement close process to ensure the accounting and financial reporting are accurate and in accordance with applicable standards. We recommend this process be performed prior to the start of audit fieldwork. This process should include the following: convert cash basis accounting to accrual basis, preparation of supporting schedules for balances recorded in the general ledger at year-end, and preparation of draft financial statements in accordance with applicable standards. We also recommend the County record all current year adjusting journal entries to the trial balance in a timely manner to ensure it reconciles to the financials and properly balances next year.

Response and corrective action: Historically, these functions were performed by the County Auditor or outside vendor. In 2015, with the reorganization of departments under the control of the County Administrator, the Commission approved the creation of the Finance Department, led by a Finance Manager directly reporting to the Assistant County Administrator – Finance & Administrative Services.

Access to the EDEN Financial Reporting System is currently controlled within the County Auditor's Office. The continued deficiencies indicate to County management that control of the EDEN financial system should be moved to the Finance Department. The statutory requirements of the County Auditor for controlling financial systems will be reviewed and a written opinion will be provided by the County's legal counsel. In addition, the Finance Department will initiate a process to reconcile all fund balances prior to audit fieldwork and review all transactions to determine proper reporting in accordance with Generally Accepted Accounting Principles.

**Clay County, Missouri**

**Schedule of Findings and Questioned Costs (Continued)  
Year Ended December 31, 2016**

---

*2016-002 – General Ledger System Access – Material Weakness*

Criteria: Management of the County is responsible for establishing and maintaining effective internal controls over financial reporting. These controls should allow management or employees to prevent, or detect and correct, misstatements to the financial statements on a timely basis. These controls should also provide for the proper segregation of duties within the financial reporting process and information technology (IT).

Condition: There is one County employee who has the ability to record journal entries to the general ledger and also has IT administrative access (super user). Management of the County has not implemented effective compensating controls to address this inadequate segregation of duties.

Cause: The County was unaware of the need to mitigate the risk for those with access to the general ledger system and the ability to record journal entries and the Finance Department communicated that no changes were implemented after this was reported in the prior year compliance report. The County does not have proper procedures and controls in place to provide for proper segregation of duties within the financial reporting process.

Effect or potential effect: The lack of segregation of duties within the general ledger system could potentially result in material misstatements of the financial statements that are not detected in a timely manner. The super user administrative access to the general ledger system could potentially result in unauthorized access of individuals to the general ledger system if not properly monitored.

Recommendation: We recommend the County establish proper segregation of duties within the general ledger system and financial reporting process, as well as establish compensating controls in consideration of those individuals with significant access throughout the general ledger system. Compensating controls could include consistent reviews of IT access reports to identify any changes in user access.

Response and corrective action: Access of the EDEN financial system is currently controlled within the County Auditor's Office. A single staff member within the County Auditor's Office is able to input, review and approve journal entries which may lead to a misrepresentation of the financial statements. The continued deficiencies indicate to County management that control of the EDEN financial system should be moved to the Finance Department to ensure proper segregation of duties and internal controls are put in place. The statutory requirements of the County Auditor for controlling financial systems will be reviewed and a written opinion will be provided by the County's legal counsel.

*2016-003 – Journal Entries Posted in the General Ledger – Material Weakness*

Criteria: Management of the County is responsible for establishing and maintaining effective internal controls over financial reporting. These controls should allow management or employees to prevent, or detect and correct, misstatements to the financial statements on a timely basis. These controls should also include proper review of manual journal entries and transactions posted in the general ledger.

Condition: There are no procedures in place to review and approve journal entry transactions by someone independent of the individual posting the entry in the general ledger.

**Clay County, Missouri**

**Schedule of Findings and Questioned Costs (Continued)  
Year Ended December 31, 2016**

---

Cause: The County was unaware of the need to mitigate the risk for those with access to the general ledger system and the ability to record journal entries. The Finance Department has communicated no supporting documentation is maintained as evidence any reviews are performed, before entries are provided to the auditor's office. The County does not have proper procedures and controls in place to provide for proper review of manual journal entries recorded in the general ledger.

Effect or potential effect: The lack of controls in place over the posting of journal entries in the general ledger system could potentially result in material misstatements of the financial statements that are not detected in a timely manner.

Recommendation: We recommend the County establish procedures over the manual posting of journal entries to the general ledger, which includes an independent review of the journal entry from the individual posting the journal entry.

Response and corrective action: The County Auditor has a single staff member responsible for the review and inputting of journal entries which can cause misrepresentation of the financial statements. The continued deficiencies indicate to County management that control of the EDEN financial system should be moved to the Finance Department as the Finance Department has personnel in place to segregate duties for inputting, reviewing, posting and approving journal entries. The statutory requirements of the County Auditor for controlling financial systems will be reviewed and a written opinion will be provided by the County's legal counsel.

*2016-004 – Audit Adjustments from prior year audit not recorded in the general ledger –  
Material Weakness*

Criteria: Management of the County is responsible for establishing and maintaining effective internal controls over financial reporting. These controls should allow management or employees to prevent, or detect and correct, misstatements to the financial statements on a timely basis. These controls should also include the posting of audit adjustments approved by management to the general ledger that were reported in the County's published financial statements.

Condition: Management approved audit adjustments identified during the 2015 audit and that were recorded in the published financial statements approved by management. Subsequent to the audit however, management did not post all of these journal entries in the Eden general ledger. As a result of this, the Eden general ledger does not agree to the County's financial statements and management instead performed a manual review between the Eden general ledger and the financial statements, however not all funds were properly reconciled.

Cause: The County does not have proper procedures and controls in place to properly record manual journal entries in the general ledger in a timely manner. Individuals authorized to post journal entries did not post all of the adjusting journal entries approved by management.

**Clay County, Missouri**

**Schedule of Findings and Questioned Costs (Continued)  
Year Ended December 31, 2016**

---

Effect or potential effect: There was a significant audit adjustment proposed and recorded during the audit process because beginning fund balance in several of the fund statements did not agree or reconcile to the prior year financial statements. The lack of proper procedures and controls in place over this process could also potentially result in material misstatements of the financial statements and material departures from generally accepted accounting principles.

Recommendation: We recommend the County put in process a timely year-end financial statement close process, that includes recording manual journal entries and adjusting journal entries identified, in a timely manner.

Response and corrective action: The Finance Department established a process of reviewing and posting of adjusted journal entries to final trial balance and submitted to County Auditor. Failure to receive timely journal entry adjustments from the County Auditor resulted in issues with reconciling beginning fund balances to the trial balance. This deficiency can be corrected by moving control of the EDEN financial system to the Finance Department.

**B. Compliance Findings**

None reported

**III. Findings and Questioned Costs for Federal Awards**

**A. Internal Control**

**2016-005  
U.S. Department of Homeland Security  
Passed Through the State of Missouri Emergency Management Agency  
Pass-Through Identifying Number FEMA-4238-DR-MO  
Hazard Mitigation Grant (CFDA 97.039)  
Federal Award Year 2016**

Criteria: The Uniform Guidance requires the County to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements that includes certain required elements, including total federal awards expended for each individual federal program.

Condition: Management did not properly include all of the federal grant expenditures on the SEFA for the year ended December 31, 2016. During the audit, additional federal grant expenditures were identified by the audit team, that should have been reported on the SEFA and was subsequently added.

Cause: The County does not have proper procedures and controls in place to ensure the SEFA is complete and accurate, and properly includes all federal expenditures incurred during the year ended December 31, 2016.

Effect or potential effect: The County excluded from the SEFA, federal grant expenditures incurred relating to the Hazard Mitigation grant, which was subsequently assessed as a high risk Type B grant. In addition, the County potentially missed reporting a high risk Type B grant as a major program.

**Clay County, Missouri**

**Schedule of Findings and Questioned Costs (Continued)**  
**Year Ended December 31, 2016**

---

Questioned costs: No questioned costs identified.

Recommendation: We recommend management perform a thorough review of the SEFA to verify it includes all expenditures of federal grant programs for completeness and accuracy.

Response and corrective action: The Finance Department will implement a new process, effective in 2017 for thoroughly reviewing, tracking and updating grant awards approved by the County Commission and ensure staff receive the training necessary to update the SEFA completely and accurately.

**B. Instances of Noncompliance**

None reported

**Clay County, Missouri**

**Corrective Action Plan
